WHO WE ARE

Who we are

We are a uniform design and supply company based on Al Manama – Ras Al Khaimah Road, with a showroom and workshop where we design, sample, embroider, print and tailor uniforms. Our clients include offices, hotels, restaurants, clinics, schools, security companies, facilities management firms and industrial operators.

Our approach is straightforward: understand how your people work, recommend garments and fabrics that suit them, show you a sample before production and deliver what was approved. Alongside uniforms, we supply woven, knitted and non-woven fabrics, disposable PPE and hospitality textiles.

How we work

- A dedicated account manager for each client, for the first order and every reorder
- Design, sampling, embroidery, printing and tailoring under one roof
- On-site consultations and measurement sessions across the UAE
- Quality checks after production, before every order is packed
- Approved designs, fabrics and logo files kept on record so reorders match

We stand behind our work. If a garment has a manufacturing defect, we replace it.

Leadership

MANAGING DIRECTOR

Moien Hijazi

Oversees operations, apparel and fabric sourcing, with more than 40 years in apparel and fabrics.

DIRECTOR OF SALES & PRODUCTION

Hadi Hijazi

Works with clients to shape uniform packages that suit their organisation, and manages production.

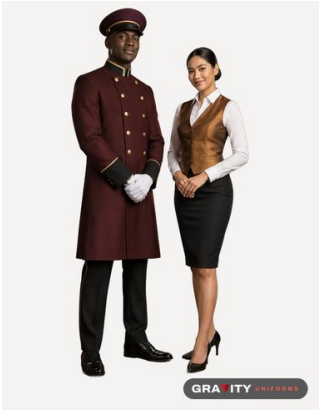
WHAT WE MAKE

Uniforms for every sector

Each range is planned around the roles in your organisation, the conditions they work in and how the garments will be washed.

Corporate & office

Shirts, blouses, suits and blazers for reception, sales and executive teams.

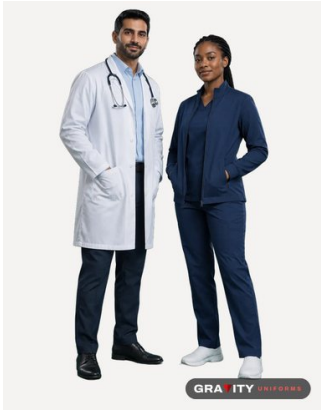


Hotels & hospitality

Front office, concierge, food and beverage, spa and housekeeping ranges.

Restaurants, cafes & catering

Chef coats, aprons, waiter and barista uniforms.

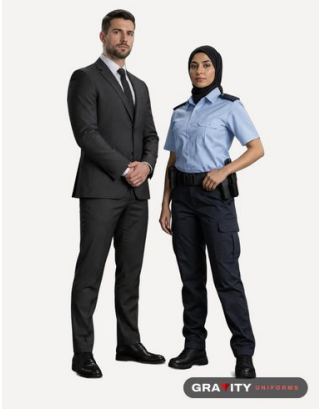


Medical & healthcare

Scrubs, lab coats, tunics and patient-facing uniforms.

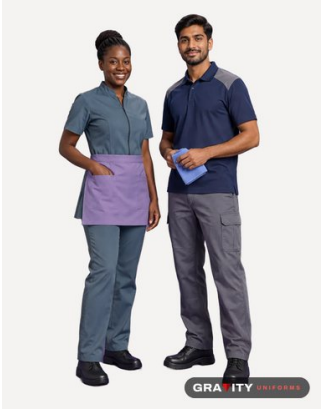
Schools & nurseries

Shirts, pinafores, PE kits and blazers with embroidered crests.



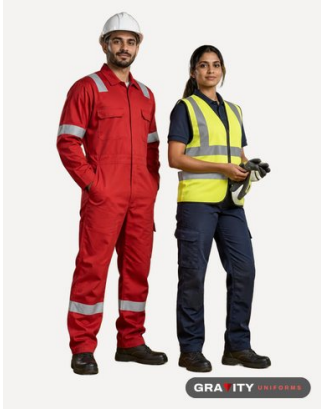
Security

Guard shirts, trousers, jackets, caps and accessories.



Housekeeping & cleaning

Tunics, dresses, polos and aprons built for long shifts.



Industrial workwear

Coveralls, work shirts, cargo trousers and hi-vis.

Aviation

Cabin, ground and airside uniforms.

Sportswear & team kits

Jerseys, tracksuits and PE kits.

Promotional wear

T-shirts, polos, caps and bags for events and campaigns.

Your sector is not listed?

We design uniforms around the roles in your team. Tell us how your people work.

PRODUCTS AND FABRICS

Garments, fabrics and supplies

Woven, knitted and non-woven fabrics for uniforms, PPE and hospitality textiles, sourced to your specification and supplied in bulk from Ras Al Khaimah.

Suits & blazers

Chef uniforms

Medical scrubs

Coveralls

Polo shirts

Caps & hats

Jackets & outerwear

Disposable PPE

Fabrics & textiles

National Day wear

Flags

Sizes

Ready sizes XS to 4XL in men's and women's cuts where the style allows, children's sizes for schools, and made to measure for tailored roles.

UNDER ONE ROOF

Design, embroidery, printing and tailoring in our workshop

Embroidery

Gravity Uniforms embroiders logos, crests and names in Ras Al Khaimah on computerised machines in its own workshop. Each job starts with logo digitising and thread matching, then a stitched sample on the actual garment for approval. It embroiders shirts, polos, scrubs, chef coats, jackets, coveralls, caps and bags, and keeps files for reorders.

Printing

Different artwork and quantities call for different printing methods. We recommend the one that gives the best result for your design, budget and deadline.

- Screen printing: bright, durable colours and the most economical option for larger runs of the same design with a limited number of colours
- DTF (direct-to-film) printing: full-colour artwork, gradients and photographic detail on cotton and blends, well suited to smaller runs
- Heat transfer: individual names, numbers and variable text, often combined with other methods
- Sublimation: all-over full-colour designs on light-coloured polyester, used for sports jerseys

Design, tailoring and alterations

Gravity Uniforms designs uniforms, makes samples, tailors suits, blazers and front-office uniforms to measure, and alters or resizes uniforms, including ones it did not make, at its Ras Al Khaimah workshop. Its team also runs measurement sessions at client premises across the UAE and records each person's measurements for future orders.

Fabrics, textiles and disposable PPE

Alongside uniforms we supply woven, knitted and non-woven fabrics, disposable PPE and hospitality textiles.

HOW AN ORDER RUNS

Four steps, one sample you approve first

01
Visit
We visit you anywhere in the UAE, or you visit the Ras Al Khaimah showroom. We bring fabric swatches, samples and designs, and take your team's measurements.

02
Sample
You approve a sample before production starts.

03
Production
Cutting, sewing, embroidery and printing in our workshop, with a quality check after production and before packing.

04
Delivery
Packed and delivered to your location in any emirate.

INCLUDED FREE

- Free appointment: we visit your premises anywhere in the UAE
- Free samples once the initial terms are agreed; the sample count is part of your order
- Free on-site measurements by our master cutter
- Free delivery across the UAE in Gravity Uniforms packing

Minimum quantities, lead times and prices depend on the garment, the fabric and the branding method, and are confirmed in each written quotation.

FOR PROCUREMENT TEAMS

Bulk Uniform Supply for Companies and Institutions

Buying uniforms for a whole organisation is different from buying a few shirts. You need one point of contact, garments that match across departments and sites, a quotation you can put in front of finance and a supplier who can repeat the order a year later. This is how we work with every organisation we supply.

What your procurement team gets

- A dedicated account manager for your organisation, from the first visit to every reorder
- A free appointment: we visit your premises anywhere in the UAE with fabric swatches, garment samples and designs
- Free on-site measurements by our master cutter, arranged by shift or department so work is not interrupted
- Free samples once the initial terms are agreed (the sample count is part of your order), approved by you before production starts
- A written quotation confirming garments, fabrics, branding, quantities, lead time and price
- Design, cutting, sewing, embroidery and printing under one roof in Ras Al Khaimah, with a quality check after production and before packing
- Free delivery to any emirate in Gravity Uniforms packing, packed by department, site or employee
- Approved designs, fabrics and logo files kept on record, so reorders match the first order
- Garments with a manufacturing defect are replaced

What to include in your request for quotation

A clear request gets you a clear quotation faster. If some of these points are still open, send what you have and we will fill the gaps during the visit.

01 The roles to be dressed and the garments for each, for example shirts, trousers, tunics, chef coats, scrubs or coveralls

02 Headcount per role, with a size breakdown if you have one, or a request for on-site measurements

03 Working conditions: outdoor heat, kitchens, laundry rooms, chemicals or frequent industrial washing

04 Your logo file and where it should go: chest, sleeve, back or cap front, plus any staff names

05 Delivery sites, the date you need the uniforms and how they should be packed

06 How many sets each person receives, and how you expect to order for new staff and replacements

Organisations we supply

Hotels and resorts, facilities management and cleaning companies, hospitals and clinics, schools, factories and contractors, security companies, and corporate offices, banks and showrooms.

QUALITY AND AFTERCARE

What you approve is what you receive

Sample before production

Production starts only after you sign off a sample, including the embroidered or printed logo.

Checked before packing

Every order has a quality check after production and before it is packed.

Reorders that match

Approved designs, fabrics, logo stitch files and staff sizes are kept on record.

Defects replaced

If a garment has a manufacturing defect, we replace it.

Alterations

Sleeves, hems and fit adjusted in our workshop as staff change, including garments we did not make.

Packed per person

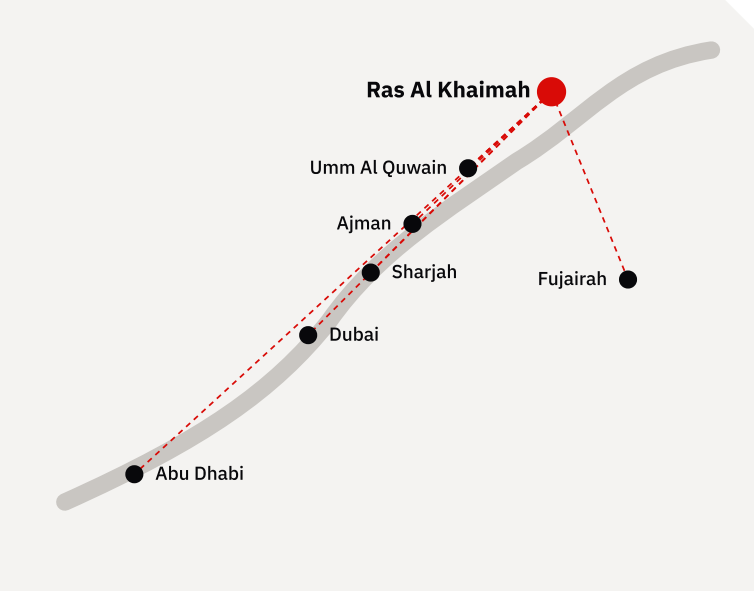
Orders packed by department, site or employee, with names embroidered from your list.

Care basics that make uniforms last

- Always follow the care label; it overrides general advice
- Wash similar colours together and whites separately
- Turn printed and dark garments inside out
- Press embroidery and prints from the reverse side
- Avoid chlorine bleach on coloured garments and embroidery thread
- Avoid fabric softener on performance, hi-vis and flame-retardant fabrics unless the label allows it
- Do not overload dryers, and line dry where possible

WHERE WE WORK

From Ras Al Khaimah to the UAE and the GCC



Schematic, not to scale.

Showroom and workshop
